Segregation Holdings Company Limited conducted an In-depth Analysis and Report Compilation on our new pediatric dental practice located in North Richland Hills, Texas. We were very pleased when the analysis was completed and they informed us that they were able to uncover an additional 22% tax saving benefit than originally quoted. The process was very smooth and painless on our end. We simply provided Segregation Holdings Co with all the construction and closing documentation for the building and Jeff Hobbs took it from there. This analysis allowed our Tax preparer to complete a much more thorough return for 2011.

Thank you SHCL for your awesome customer service and attention to detail.
